RATE SCHEDULE G TELECOMPETITIVE SERVICE OFFERINGS

Telecompetitive Service Offerings (ATSOs@)

From time to time, Carrier shall tariff rates or select tariffed rates, the purpose of and/or design for which is to retain Carrier's competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential customers, which if not matched or bettered would result in the loss of an existing or potential customer and/or in the reduction of traffic volume of the customer. Carrier either shall require customer confirmation of the competitive offer in writing or shall confirm the availability of a more favorable competitive rate from published tariffs, marketing materials, or other public sources to establish a customer's right to obtain a TSO.

TSOs will comply with the Carrier's net revenue test which is founded on established economic principles ensuring above-cost pricing.

A customer or potential customer which is similarly situated may request service under a new or previously tariffed TSO. To qualify as a similarly situated customer for purposes of this Section, the customer seeking the TSO must demonstrate the existence of circumstances substantially and materially like those which justified the TSO as tariffed.

An existing customer or potential customer unable to demonstrate being similarly situated under a tariffed TSO may, nonetheless, be able to qualify for a different or new TSO tailored to that customer's circumstances.

TSOs are available for all rates published in this Tariff.

Whenever a customer's competitive offer entails a rate which is not at the time offered by the Company, a specifically responsive competitive rate (RCR) matching that otherwise available from the competitive offering shall be tariffed in Rate Schedule H following.

Benchmark Rates

Certain rates set forth in this tariff are Abenchmarked, @ that is, keyed to a customer's monthly revenue volume and/or term commitments. Customers whose monthly revenue volume and/or term commitments do not meet the applicable benchmark(s) may obtain the benchmarked rate as a TSO offering.

Customer Advantage Plans (ACAPs@)

A. General Terms and Conditions

From time to time, rates may be tariffed or tariffed rates selected, a "Customer Advantage Plan" or "CAP," the purpose and/or design for which is to retain Company's competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential Customers, which if not matched or bettered would result in the loss of an existing or potential Customer and/or in the reduction of traffic volume of a Customer. Customer confirmation of the competitive offer in writing may be required or the availability of a more favorable competitive rate may need to be confirmed from published tariffs, marketing materials or other public sources to establish a Customer's right to obtain a CAP. In order to respond to the competitive pricing initiatives of competitors, the following Customer Advantage Plan offerings are available for eligible Customers taking outbound and inbound equal access switched services of Company originated from and terminated to locations within this state whenever Company determines that but for the availability of these rates, Company will not retain an existing Customer ("save") or will not be able to winback a prior Customer already having switched its services to another carrier ("winback"). The following terms and conditions must exist for any CAP to be valid.

- CAPs will comply with the net revenue test as defined by the one or more regulatory commissions having competent jurisdiction and which is founded on established economic principles ensuring above-cost pricing.
- 2. A Customer or potential Customer which is similarly situated may request service under a new or previously tariffed CAP. To qualify as a similarly situated Customer for purposes of this Section, the Customer seeking the CAP must demonstrate the existence of circumstances substantially and materially like those which justified the CAP as tariffed.
- 3. An existing Customer or potential Customer unable to demonstrate being similarly situated under a tariffed CAP may, nonetheless, be able to qualify for a different or new CAP tailored to that Customer's circumstances.
- 4. CAPs are available for all published rates.
- 5. Whenever a Customer's competitive offer entails a rate which is not at the time an offered rate by Company, a specific rate competitively responsive to that available from the competitive offering shall be tariffed in Promotional and Special Service Offerings.
- 6. All of the conditions set forth above must exist in order to qualify for the following Customer Advantage Plans. Company shall apply the lowest rate necessary to meet the competitive offering being made to or having been provided to Customer by a carrier competing with Company. Additional terms and/or conditions, such as term or volume commitments, may apply. In the event additional terms or conditions are required, such terms and conditions shall be tariffed by Company prior to institution of the first billing for services under the applicable Customer Advantage Plans.
- 7. To receive the Invoice Free CAPs pursuant to B through and including F following, a Customer must call Customer Care before the issuance date of each credit bearing invoice to verify Customer eligibility, except as otherwise provided following.

Customer Advantage Plans (ACAPs@)

A. General Terms and Conditions

From time to time, rates may be tariffed or tariffed rates selected, a "Customer Advantage Plan" or "CAP," the purpose and/or design for which is to retain Company's competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential Customers, which if not matched or bettered would result in the loss of an existing or potential Customer and/or in the reduction of traffic volume of a Customer. Customer confirmation of the competitive offer in writing may be required or the availability of a more favorable competitive rate may need to be confirmed from published tariffs, marketing materials or other public sources to establish a Customer's right to obtain a CAP. In order to respond to the competitive pricing initiatives of competitors, the following Customer Advantage Plan offerings are available for eligible Customers taking outbound and inbound equal access switched services of Company originated from and terminated to locations within this state whenever Company determines that but for the availability of these rates, Company will not retain an existing Customer ("save") or will not be able to winback a prior Customer already having switched its services to another carrier ("winback"). The following terms and conditions must exist for any CAP to be valid.

- 1. CAPs will comply with the net revenue test as defined by the one or more regulatory commissions having competent jurisdiction and which is founded on established economic principles ensuring above-cost pricing.
- 2. A Customer or potential Customer which is similarly situated may request service under a new or previously tariffed CAP. To qualify as a similarly situated Customer for purposes of this Section, the Customer seeking the CAP must demonstrate the existence of circumstances substantially and materially like those which justified the CAP as tariffed.
- 3. An existing Customer or potential Customer unable to demonstrate being similarly situated under a tariffed CAP may, nonetheless, be able to qualify for a different or new CAP tailored to that Customer's circumstances.

- A. General Terms and Conditions (Cont'd)

 - 5. Whenever a Customer's competitive offer entails a rate which is not at the time an offered rate by Company, a specific rate competitively responsive to that available from the competitive offering shall be tariffed herein.
 - 6. All of the conditions set forth above must exist in order to qualify for the following Customer Advantage Plans. Company shall apply the lowest rate necessary to meet the competitive offering being made to or having been provided to Customer by a carrier competing with Company. Additional terms and/or conditions, such as term or volume commitments, may apply. In the event additional terms or conditions are required, such terms and conditions shall be tariffed by Company prior to institution of the first billing for services under the applicable Customer Advantage Plans.

Customer Loyalty Plans

General Terms and Conditions

From time to time, rates may be tariffed or tariffed rates selected, a "Customer Loyalty Plan" or "CLP," the purpose and/or design for which is to retain QLC= competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential Customers, which if not matched or bettered would result in the loss of an existing or potential Customer and/or in the reduction of traffic volume of a Customer. Customer confirmation of the competitive offer in writing may be required or the availability of a more favorable competitive rate may need to be confirmed from published tariffs, marketing materials or other public sources to establish a Customer's right to obtain a CLP. In order to respond to the competitive pricing initiatives of competitors, the following Customer Loyalty Plan offerings are available for eligible Customers taking outbound and inbound equal access switched services of QLC originated from and terminated to locations within this state whenever QLC determines that but for the availability of these rates, QLC will not retain an existing Customer ("save") or will not be able to winback a prior Customer already having switched its services to another carrier ("winback").

The following terms and conditions must exist for any CLP to be valid.

- **A.** CLPs will comply with the net revenue test as defined by the one or more regulatory commissions having competent jurisdiction and which is founded on established economic principles ensuring above-cost pricing.
- **B.** A Customer or potential Customer which is similarly situated may request service under a new or previously tariffed CLP. To qualify as a similarly situated Customer for purposes of this Section, the Customer seeking the CLP must demonstrate the existence of circumstances substantially and materially like those which justified the CLP as tariffed.
- C. An existing Customer or potential Customer unable to demonstrate being similarly situated under a tariffed CLP may, nonetheless, be able to qualify for a different or new CLP tailored to that Customer's circumstances.
- **D.** CLPs are available for all published rates.

E. Whenever a Customer's competitive offer entails a rate which is not at the time an offered rate by QLC, a specific rate competitively responsive to that available from the competitive offering shall be tariffed in the Customer Loyalty Plans of Rate Schedule Q.

F. All of the conditions set forth above must exist in order to qualify for the following Customer Loyalty PLans. QLC shall apply the lowest rate necessary to meet the competitive offering being made to or having been provided to Customer by a carrier competing with QLC. Additional terms and/or conditions, such as term or volume commitments may apply. In the event additional terms or conditions are required, such terms and conditions shall be tariffed by QLC prior to institution of the first billing for services under the applicable Customer Loyalty Plans.

Methodology for Determing Call Charges

Rate Basis: Charges are based on access to and usage of the QLC2000 network and QLC2000's related costs of operation. Charges cease when the call is effectively disconnected from the network. Effective disconnection will vary depending on such factors as the availability or absence of automatic timing equipment deployed in the network, failure of one party to effect disconnection, attachment of Customer or other party's equipment or for other reasons beyond QLC2000's control. QLC2000 assumes no liability for holding time durations or other call completion problems over which it has no control.

<u>Included Costs</u>: Subject to the provisions set forth on Original Sheet No. 16.26 preceding governing billing for delinquent accounts, charges for calls are based on network usage and network support costs.

Rounding: QLC2000 follows the industry practice of "rounding," that is, in its most basic form, when call duration does not end on the nearest whole billing increment, e.g., a six-second increment, the call's duration is rounded to the next whole billing increment, i.e., the next whole 6-second increment. Rounding varies based on the call increments used in billing for a particular service. One or more of the following rounding methodologies may be applied to a particular service only when and as tariffed herein.

Rule 1 - Definitions (continued)

Total Call Units (TCUs): The total number of applicable Call Units (Initial, Incremental, Minimum Billed and/or Equivalent) billed in whole numbers and fractionally in tenths, (e.g., .3, 1.2, 2.5, 11.1, etc.) used to determine the charges necessary to recover the Carrier's transport and non-transport costs incurred in providing services pursuant to this tariff. Usage Increments: Increments of use measured in Bill Seconds (up to a maximum of 609 Bill Seconds) as specified in this tariff by which the Equivalent Call Units applicable to a call are determined.

Rule 2 - Description of Service

Carrier has been granted authority by the CPUC to provide twenty-four (24) hour intrastate interLATA and intraLATA long distance telecommunications service from and to origination and termination points in the State of California.

Rule 3 - Customer Application for Service

Customers desiring Carrier's service may be asked to complete an application form which may provide the basis for drafting a service contract with the customer consistent with the terms specified in this tariff.

Rule 4 - Contracts - Contractual Requirements

Any customer service contract shall contain the following provision: This contract shall at all times be subject to such changes or modifications by the Public Utilities Commission of the State of California as said Commission may from time to time direct in the exercise of its jurisdiction.

Rule 5 - Special Information Required on Forms

No special information is required.

Rule 6 - Establishment and Reestablishment of Credit

Carrier reserves the right to examine the credit records of all applicants and customers. Carrier may examine the credit profile/record of any applicant prior to entering into a service contract. In the event Carrier denies a request for service, the applicant shall be notified in writing.

Rule 7 - Deposits and Advance Payments

Carrier may, in order to safeguard its interests, require an applicant to make a suitable deposit to be held as a guarantee of the payment of charges. In addition, an existing customer may be required to make a deposit or to increase a deposit presently held. Pursuant to CPUC Decision No. 90-08-032, the deposit shall not exceed an amount equal to one month's estimated usage, unless otherwise justified by Carrier in an advice letter filing with the Commission. Deposits shall earn on the monthly, unused balance not less than simple annual interest based on the three-month financial commercial paper rate published by the Federal Reserve Board, on November 30th, of the prior year. Any customer who has paid all bills rendered by Carrier in a prompt and timely manner for a full year after the making of a deposit shall be entitled to the return of said deposit with accrued interest.

Carrier may require a deposit to establish or re-establish service if and only if an applicant for service is unable to demonstrate acceptable credit to the satisfaction of the carrier. Failure to provide a social security number shall not be cause for requiring a deposit. Carrier may not require for its own benefit a deposit for services provided by another carrier, or refuse to accept a deposit in lieu of demonstrating satisfactory credit.

Except for cancellation of service or as otherwise provided by these Rules, any notice from any customer may be given to Carrier orally by the customer or any authorized representative, or by written notice mailed to Carrier.

Call Unit Calculations

Total charges per call are calculated by using the information provided in Tables 1 or 2 to determine Total Call Units ("TCU's") in each call and by multiplying the TCU's by the rates applicable to the service provided. The following tables may be used to determine the TCU's in any call of a specified duration as shown following:

TABLE 1 - Calls of a Minute or Less

<u>Duration (In seconds)</u>	TCU's	
1-18*	3.1	(I)
19-22	3.2	
23-24	3.3	
25-26	3.4	į
27-30	3.5	į
31-35	3.7	
36	3.8	į
37-42	3.9	į
43-44	4.0	
45-48	4.1	
49-53	4.2	į
54	4.3	
55-59	4.4	į
60	4.5	(I)

^{*} calls are subject to an 18-second minimum.

TABLE 2 - Calls in Minutes

<u>Duration (In minutes)</u>	Formula Calculations	
1-19.9	TCU's = [Call Duration (in minutes) $x 2 + 2.5$]	(I)
20 +	TCU's = [Call Duration (in minutes) + 22.5]	(I)

Note: The tables preceding can be used in reverse to convert TCU's to minutes of call duration for individual calls.

Rule 9B - Calculation of Charges Under Call Unit Rate Structure

A. Rounding

- 1. Rounding at 18/6. Company follows the industry practice of "rounding," that is, in its most basic form, when call duration does not end on the nearest whole six second increment, the call's duration is rounded to the next whole 6 six second increment. Services with billing increments of 6 second increments with a 18 second minimum are billed as follows - a minimum of 3 call units, equal to either 3 ICUs of 6 seconds each, or 1 MCU of 18 seconds as the minimum, with additional call duration rounded to the next higher 6 second increment, i.e., the next ICU having a value in this case of a whole 6 seconds.
- Rounding to Whole Cents. Charges for each call are totaled. If the computed charges include a fraction of 2. a cent, the fraction is rounded up to the next whole cent (e.g., \$1.4233 would be rounded up to \$1.43).

In the case of a billing dispute between a subscriber and a carrier, the carrier shall investigate the charges the subscriber has informed the carrier are in question, and shall reach a determination and communicate it to the subscriber within 30 days. During the time the investigation is pending, no late charges or penalties may be collected, the charge may not be sent to collection, and no adverse credit report may be made based on non-payment of the charge. If the subscriber prevails, no late charge or penalty may be imposed on the amount in dispute.

(N)

(N)

All disputed charges for any telecommunications service are subject to a rebuttable presumption that the charges are unauthorized unless there is (i) a record of affirmative subscriber authorization; (ii) a demonstrated pattern of knowledgeable past use; or (iii) other persuasive evidence of authorization.

(N) (N)

Subscribers may not be held liable for unauthorized charges. Subscribers must make a reasonable, good-faith effort to notify the billing telephone company promptly when the subscriber becomes aware of a probability of unauthorized use of the subscriber's account. If the billing telephone company is unable to verify authorization, a charge is deemed unauthorized.

(N)

A carrier may not disconnect service to a subscriber before seven (7) calendar days after the date the carrier notifies the subscriber in writing of the results of its investigation. In no event shall the carrier disconnect service prior to the due date shown on the bill.

(N)

(N)

In the case of a billing dispute between the customer and Carrier for service furnished to the customer which cannot be settled with mutual satisfaction, the customer may take the following course of action:

- A. First, the customer may submit a request, and Carrier will comply with the request, for an in-depth review of the disputed amount. (The undisputed portion and subsequent bills must be paid on a timely basis or the service will be subject to termination.)
- B. Second, if there is still a disagreement about the disputed amount after the investigation and review by a manager of the Carrier, the customer may seek resolution of the dispute by filing a formal or informal complaint with the California Public Utilities Commission.
- C. To avoid disconnection of service, the customer must submit the claim and, if the bill has not been paid, deposit the amount in dispute with the CPUC. The disputed amount must be made payable to the CPUC.

A. General Provisions

Except in cases covered by the provisions of Section B below, the following provisions shall govern the termination and denial of service. Carrier shall comply with the rules adopted by the Commission in D.91188 regarding service denial or disconnection for use of telecommunications service in violation of the law.

Rule 11 - Termination, Denial, and Restoration of Service (Cont'd)

A. General Provisions (Cont'd)

2. Carrier may terminate service to any customer for failure to make timely advance payments or payments for services which have been rendered. If the customer fails to make such payments within ten (10) days of due date shown on the applicable payment coupon, service will be subject to termination. Carrier shall provide notice in writing to subscribers whose payments are overdue not less than seven (7) calendar days prior to terminating service for nonpayment. Service which is terminated for failure to pay will be restored upon customer's payment of amounts due plus a reconnection charge to cover relevant costs, and a deposit not to exceed two (2) months' average or estimated usage for a term of one (1) year from date of receipt of funds. Deposits shall earn on the monthly, unused balance not less than simple annual interest based on the three-month financial commercial paper rate published by the Federal Reserve Board, on November 30th, of the prior year. Restoration of service on these terms is available to customer only within forty-five (N) (45) days of notice of intent to terminate.

Service will not be disconnected for nonpayment of a disputed amount if the subscriber has submitted a claim to CAB for informal review and deposited the disputed amount with the Commission.

Pursuant to CPUC Decision No. 90-08-032, in R.85-08-042, Carrier will promptly inform the local exchange carrier within the service area of which a terminated customer's billing address or premises are located of the termination of Carrier's service to said customer for failure to make timely payments for Carrier's services.

Insolvency, voluntary or otherwise, shall be grounds for immediate termination upon notification of any federal bankruptcy court, creditors' committee, debtor's attorney or debtor.

Payment of any bill (normal bill round) returned by a bank for insufficient funds or closure of account is grounds for automatic termination, at the option of Carrier.

- 3. Denial or termination of service by Carrier for reasons other than those enumerated in paragraphs 1 and 2 above shall be made upon reasonable notice to the customer except in the event of emergency or threatened or actual disruption of service to other customers, in which case Carrier may terminate service without advance notice.
- 4. Customer may cancel service at any time by written notice to Carrier. Carrier will hold the customer responsible for payment of all bills for service furnished until the date that service is cancelled.

At the time of giving any such notice of objection, the law enforcement agency shall mail or deliver a copy thereof to the applicant or subscriber. C. Service Term Commitments

- 1. **Termination Charges** Discontinuance Before Expiration. Should customer discontinue service before the expiration of any term commitment specified in this tariff, customer shall be liable for termination charges as specified in the term commitment.
- 2. 90-Day Term Agreement - In consideration for the value of various promotional offerings granted to certain new customers, such customers may elect to be subject to a 90-Day Term Agreement. Should a customer under this term agreement terminate service with Company prior to completion of the term, that customer is subject to an early termination charge equal to the amount of estimated billing for such customer, applied on a pro-rata basis for the remainder of the term. The monthly estimated billing for a customer is determined by customer's previous carrier's invoice. The initiation date of the term is deemed the date of customer's first call. The date of termination of service is deemed as the date Company's Winback Department notes customer's account as in "jeopardy." The pro-rata early termination charge amount is determined by multiplying customer's monthly estimated billing by three (3) (to determine the total term estimated billing), determining the percentage of the remaining days of the term after termination, as compared to the entire term, and applying the remaining term percentage to the total term estimated billing. Percentages are rounded up to the next whole number, and termination charges are rounded up to the next whole dollar. The early termination charge will be applied to customer's next invoice after the date of termination. Customer's 90-Day Term Agreement will automatically renew for subsequent additional 90-Day terms unless customers cancel their account within 30 days of completion of the current term.
- 3. **6-Month Term Agreement** – In consideration for the value of various promotional offerings granted to certain new customers, such customers may elect to be subject to a 6-Month Term Agreement. Should a customer under this term agreement terminate service with Company prior to completion of the term, that customer is subject to an early termination charge equal to the amount of estimated billing for such customer, applied on a pro-rata basis for the remainder of the term. The monthly estimated billing for a customer is determined by customer's previous carrier's invoice. The initiation date of the term is deemed the date of customer's first call. The date of termination of service is deemed as the date Company's Winback Department notes customer's account as in "jeopardy." The pro-rata early termination charge amount is determined by multiplying customer's monthly estimated billing by six (6) (to determine the total term estimated billing), determining the percentage of the remaining days of the term after termination, as compared to the entire term, and applying the remaining term percentage to the total term estimated billing. Percentages are rounded up to the next whole number, and termination charges are rounded up to the next whole dollar. The early termination charge will be applied to customer's next invoice after the date of termination. RULES (Continued)

Rule 11 - Termination, Denial, and Restoration of Service (Cont'd)

C. Service Term Commitments (Cont'd)

- 4. 1-Year Term Agreement - In consideration for a guarantee, granted to certain new customers, that a customer's long distance Interstate and Intrastate/IntraLata usage rates will not increase during the Agreement term, such customers may elect to be subject to a 1-Year Term Agreement. Should a customer under this term agreement terminate service with Company prior to completion of the term, that customer is subject to an early termination charge equal to the amount of estimated billing for such customer, applied on a pro-rata basis for the remainder of the term. The monthly estimated billing for a customer is determined by customer's previous carrier's invoice. The initiation date of the term is deemed the date of customer's first call. The date of termination of service is deemed as the date Company's Winback Department notes customer's account as in "jeopardy." The pro-rata early termination charge amount is determined by multiplying customer's monthly estimated billing by twelve (12) (to determine the total term estimated billing), determining the percentage of the remaining days of the term after termination, as compared to the entire term, and applying the remaining term percentage to the total term estimated billing. Percentages are rounded up to the next whole number, and termination charges are rounded up to the next whole dollar. The early termination charge will be applied to customer's next invoice after the date of termination.
- 5. **Discontinuance Without Liability** Customers may discontinue service before expiration of any term commitment specified in this tariff without incurring the applicable termination charges if customers restructure their service by agreeing to a new service term of equal or greater length as that of the service term customer discontinues or to a new service with a greater volume commitment for a term, the combination of which (that is, the new term and greater volume commitment) has a value equal to or greater than the value of the service being discontinued.

Notwithstanding the foregoing, subscribers may cancel without termination fees or penalties any new (N) tariffed or contract service within 30 days after the new service is initiated. This does not relieve the Customer from payment for per-use and normal recurring charges applicable to the service incurred before canceling, or for the reasonable cost of work done on Customer Premises prior to service cancellation. Rule 19 – Arbitration of Disputes

All disputes concerning or affecting any service, rating of services, transfer of service, payments on account, credits, promotions, special offers or services, or any action or service of Company and/or its agents and/or any billing, bills, invoices, or statements of accounts shall be resolved through binding arbitration. Arbitration of disputes, whether raised by the Company or by the Customer, shall resolve all issues between the Company and the Customer, and shall not involve any form of class or collective arbitration nor any form whatsoever of class action lawsuit. As a condition of service under this Tariff, and as disclosed in the customer authorization for service (LOA), any dispute or any counterclaims in response to such a dispute shall be governed by such arbitration rules and procedures. Nothing herein shall be construed to deny a customer its rights to file complaints with the California Public Utilities Commission pursuant to applicable statutory or regulatory provisions at the conclusion of any arbitration conducted in accordance herewith. Carrier shall not hold subscribers liable for carrier costs resulting from complaints before the Commission, arbitrators, the courts or another agency.
